SYSTEM STRUCTURE

Live Chat

Seat Heat-Map

Pro Broadcasting

Online fans could be added to a special playlist where their favorite players are broadcasting during the game. For example, defense team players in the football game could open a channel talk about their thoughts during the offense.

Powerful Tweets

This feature allow fans to display their tweets in the bottom part of player's contact display. The tweets are automatically refreshing during the game.

First Personal Live Stream

All the fans who subscribe Invasive Sports's service could have access to the first personal view from players, coaches and even the fans in the stadium. Once they connect to the first personal live stream, they can follow the selected view for the whole game.

Invasive Sports is building upon different plans with different levels of accesses. Here is a chart indicates all the plans and their features.
